## PROJECTS-

### Personal Portfolio

A dynamic personal portfolio built with React, showcasing my skills, projects, and accomplishments in web development. It demonstrates my ability to create interactive, responsive, and user-friendly applications.

**Technologies Used :** HTML , CSS , And JS

**Link :** <https://llaman-devll.netlify.app/>

### E-commerce Website ( Mischief Nation )

A fully functional e-commerce website featuring product browsing, cart management, and a secure checkout process. The project highlights my ability to design seamless user experiences and implement core features for online shopping.

**Technologies Used :** HTML , CSS And JS

**Link :** <https://github.com/AMAN-CODE336/Mischief-Nation>

### Movie Recommendation Website ( Movie.Time)

A movie recommendation website that suggests films based on user preferences and ratings. The project demonstrates my ability to integrate APIs and create intuitive, interactive user interfaces.

**Technologies Used :** Html , tailwindcss , javascript , and Jquery

**Link :** <https://github.com/AMAN-CODE336/movie.time>

### Another E-commerce Website ( Vibe-Cart )

A beginner-level e-commerce website that allows users to browse products, manage a shopping cart, and proceed to checkout. The project highlights my foundational skills in building a simple yet functional online shopping experience.

**Technologies Used :** reactjs , tailwindcss and flowbite

**Link :** <https://github.com/AMAN-CODE336/Vibe-Cart>
